

THIS FOLEY-BELSAW STUDENT TURNED A LIFE-LONG FASCINATION INTO A VALUABLE NEW SKILL

Pete Owen of Irving, Texas recently received a letter from Foley-Belsaw offering him the opportunity to learn the skills of professional locksmithing – in his own home, at his own pace. The letter instantly reminded him of the captivation he had felt for locksmithing, dating to his boyhood. "Since I was a small boy reading the Foley-Belsaw ads in Mechanics Illustrated and Popular Science, I have wanted to learn how locks and keys work." Mr. Owen fondly remembered.

Today, decades after reading those ads, Mr. Owen is a highly successful and semi-retired advertising professional. Even so, he could not forget that letter and how it had rekindled his life-long fascination with locks and keys. "When I looked at that letter again" he said with excitement, "I thought to myself, if I don't do it now, I never will!" So at the urging of his 32-year-old son, Mr. Owen returned the simple enrollment form that came with the letter. That was that! Mr. Owen was finally a student in the Foley-Belsaw Professional Locksmith program!

Just a few days after enrolling, Mr. Owen received his course materials and tools of the trade – all included with his Foley-Belsaw tuition. And Mr. Owen wasted no time in mastering the skills his lessons taught him. Just read how his effort quickly paid off in big ways!

"Last Saturday I opened my first pin tumbler lock using one of the picks you sent me in Lesson 11. I can't tell you how excited I was, so I did it again. Then I locked myself out of my apartment and let myself back in. This is fun! I think I have the touch!"

"Last Saturday I opened my first pin tumbler lock using one of the picks you sent me in lesson 11. I can't tell you how excited I was, so I did it again. Then I locked myself out of my apartment and let myself back in. This is fun! I think I have the touch."

Today I opened an old Hudson file cabinet at work that had not been opened in years. My boss was amazed and he really appreciated getting the old records, one of which proved a long-standing legal case."

So how will Mr. Owen use his new skills in the future? That's the decision every Foley-Belsaw student and graduate has the freedom to make for themselves.

Mr. Owen can start his own business, choose to use his skills on his current job, or simply enjoy locksmithing as a money-making hobby.

So how will you benefit from building your new skills? Only you can answer that question.

.....

Pete Owen is one of thousands of successful students and graduates who has built his skills through Foley-Belsaw's unique easy-to-learn professional courses.
